

Environmental Policy

GFI Solutions Ltd. considers environmental protection to be an important and integral part of conducting business. Our purpose is to create an environment as waste free as possible within our operation, and to set ourselves as a leader in the reduction, reuse, and recycling of our waste.

GFI Solutions Ltd. believes in:

- ❑ Minimizing hazards to public health,
- ❑ Protecting the environment from adverse effects of construction operations,
- ❑ Comply with all legislated standards and regulations,
- ❑ Assess potential environmental risks,
- ❑ Evaluate and monitor environmental performance to applicable standards, and
- ❑ Work with industry, government, and workers to maintain environmental awareness.

All GFI Solutions Ltd. employees must be committed to protecting, preserving, and enhancing the quality of the work environment while conducting their primary activities. The company environment includes the soil, water, air and natural habitat within and around all facilities and boundaries. GFI Solutions Ltd.'s Environmental Management Program is built around three of the four focus areas: prevention, compliance, conservation and restoration. Restoration shall be the responsibility of the site owner.

GFI Solutions Ltd. conducts business in an environmentally responsible manner; optimizing the use of resources through the use of efficient technologies and procedures; preventing adverse impacts; and complying with applicable requirements. GFI Solutions Ltd.'s actively supports efforts to implement environmental policies, programs, initiatives, and activities. GFI Solutions Ltd.'s integrates environmental stewardship and accountability in the performance of its operations and activities to promote continuous improvement of environmental performance. Finally, GFI Solutions Ltd. has adopted a procurement program that will ensure corporate responsibility to the environment.

GFI Solutions Ltd.'s objectives are to prevent adverse environmental effects and to realize the benefits of superior environmental performance. To attain these objectives, GFI Solutions Ltd. uses risk management, pollution prevention, and sustainable development techniques to improve environmental performance and reduce operating costs.
